

GLASGOW FIRE DEPARTMENT
Standard Operating Guideline

GUIDELINE: GFD SERVICE TEST			SECTION: 122
WRITTEN 08/13/1990	REVIEWED	REVISED 08/25/2021	Page 44

PURPOSE

The purpose of a service test is to ensure that the engine, pump, and accessories shall perform as required. The test also exposes defects or problems before causing an interruption of service. The overall testing process also illustrates and records the performance history of the apparatus. The service test shall be conducted annually by a third-party company.

PROCEDURES

1. The third-party company shall follow current NFPA standards for fire apparatus pump test.
